16. RIGHT TO WITHHOLD

If work under this Contract is not performed in accordance with the terms, hereof, the Hospital will have the right to withhold out of any payment due to Contractor, such sums as the Hospital may deem ample to protect it against loss or to assure payment of claims arising therefrom, and, at its option, the Hospital may apply such sums in such manner as the Hospital may deem proper to secure itself or to satisfy such claims. The Hospital will immediately notify the Contractor in writing in the event that it elects to exercise its right to withhold.

This partial termination shall be effected by ten (10) days' notice to the Contractor specifying the extent to which the term(s) and/or duties under this Contract are terminated and the date upon which such termination becomes effective. The Contractor shall be entitled to receive payment for authorized services provided to the date of termination, including payment for authorized services rendered during the period of the ten (10) day notice.

No work shall be performed without the required construction permit or permits.

26. WARRANTY OF NO SOLICITATION

The Contractor expressly warrants that it has employed no person to solicit or obtain this Contract on its behalf, or to cause or procure the same to be obtained upon compensation in any way contingent, in whole or in part, upon such procurement, and that it has not paid, or promised or agreed to pay to any person, in consideration of such procurement, or in compensation for services in connection therewith, any brokerage, commission, or percentage upon the amount receivable by it hereunder; and that it has not, in estimating the contract price demanded by it included any sum by reason of such brokerage, commission or percentage; and that all monies payable to it hereunder are free from obligation to any other person for services rendered, or supposed to have been rendered, in the procurement of this Contract. Contractor further warrants that it has not violated any applicable local or federal law with respect to kickbacks, lobbying, conflicts of interest, or false or fraudulent claims in connection with the procurement of this Contract. Breach of the foregoing warranty shall give the Hospital the right to terminate this Contract immediately without penalty or further obligation to Contractor.

27. FALSE CLAIMS

Contractor warrants that it shall not, with respect to this Contract, make or present any claim upon or against the Hospital or the Government of the Virgin Islands, or any officer, department, board, commission, or other agency thereof, knowing such claim to be false, fictitious, or fraudulent. Contractor acknowledges that making such a false, fictitious, or fraudulent claim is an offense under Virgin Islands law.

28. DAVIS BACON ACT

Contractor hereby agrees that it shall comply with all rulings and interpretations of the Davis-Bacon Act (40 USC 276a-5) and that the contractor and subcontractor agrees that all employees shall be paid the locally prevailing wages as established by Virgin Islands statutes and laws.

29. NOTICE OF FEDERAL FUNDING

Contractor acknowledges that this Contract may be funded, in whole or in part, by federal funds and that the Government and the Hospital are recipients of federal funds. Contractor warrants that it shall not, with respect to this Contract, make, or present any claim knowing such claim to be false, fictitious, or fraudulent. Contractor acknowledges that making such a false, fictitious, or fraudulent claim is a federal offense.

30. DEBARMENT CERTIFICATION

By execution of this contract, the Contractor certifies that it is eligible to receive contract awards using federally appropriated funds and that it has not been suspended or debarred from entering into contracts with any federal agency. The Contractor shall include this provision in each of its subcontracts hereunder and shall furnish its subcontractors with the current "LIST OF PARTIES EXCLUDED FROM FEDERAL PROCUREMENT OR NON PROCUREMENT." In the event the Contractor or any subcontractor misrepresents its eligibility to receive contract awards using federal funds, the Contractor or subcontractor agrees that it shall not be entitled to payment for any work performed under this contract or any subcontract and that the Contractor or subcontractor shall promptly reimburse the Government of the Virgin Islands for any progress payments heretofore mad.

31. CONTRACT PROVISIONS FOR FEMA OR HUD FUNDING

Contractor acknowledges that this Contract may be funded in whole or in part with federal funds administered by the Federal Emergency Management Agency (FEMA) subject to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988 (the "Stafford Act") or by local matching funds or other local or federal public sources, including without limitation Community Development Block Grant Disaster Recovery ("CDBG-DR") funds administered by the United States Department of Housing and Urban Development (HUD), and this Contract is subject to availability and approval of such funding. 32. LIABILITY FOR GOVERNMENT COSTS RESULTING FROM DESIGN ERRORS OR DEFICIENCIES

Architect-Engineer contractors shall be responsible for the professional quality, technical accuracy, and coordination of all services required under their contracts. A firm may be liable for Government costs resulting from errors or deficiencies in designs furnished under its contract. Therefore, when a modification to a construction contract is required because of an error or deficiency in the services provided under an architect-engineer contract, the contracting officer (with the advice of technical personnel and legal counsel) shall consider the extent to which the architect-engineer contractor may be reasonably liable. The contracting officer shall enforce the liability and issue a demand for payment of the amount due if the recoverable cost will exceed the administrative cost involved or is otherwise in the Government's interest. The contracting officer shall include in the contract file a written statement of the reasons for the decision to recover or not to recover the costs from the firm.

33. RESPONSIBILITY OF THE ARCHITECT-ENGINEER CONTRACTOR

(a) The Contractor shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Contractor under this contract. The Contractor shall, without additional compensation, correct or revise any errors or deficiencies in its designs, drawings, specifications, and other services.

(b) Neither the Government's review, approval, or acceptance of, nor payment for, the services required under this contract shall be construed to operate as a waiver of any rights under this contract or of any cause of action arising out of the performance of this contract, and the Contractor shall be and remain liable to the Government in accordance with applicable law for all damages to the Government caused by the Contractor's negligent performance of any of the services furnished under this contract.

(c) The rights and remedies of the Government provided for under this contract are in addition to any other rights and remedies provided by law.

(d) If the Contractor is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

34. HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA) COMPLIANCE

Contractor shall respect and abide by all federal and local laws pertaining to confidentiality with regard to all information and records obtained or reviewed in the course of providing services under this Contract. Contractor agrees to adhere to policies and procedures adopted by the Hospital and all federal requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) governing the privacy, security and use of protected health information.

35. CENTERS FOR MEDICARE & MEDICAID SERVICES (CMS) COMPLIANCE

In performing its obligations hereunder, Contractor shall comply with all laws, regulations and policies administered by the Centers for Medicare & Medicaid Services (CMS). To the extent applicable, all work performed hereunder shall conform to relevant CMS standards, and the Contractor shall maintain compliance documentation for any and all relevant components or systems of design, testing, performance, and commissioning of the project which is the subject of this Contract and provide such documentation within the time period specified by the most current version of the codes and regulations that govern such component or system.

36. AUTHORIZATION

By signing below, the signatories represent that they are duly authorized to bind the entity on behalf of which they execute this Contract as provided herein.

37. COUNTERPARTS

This Contract may be executed in counterpart copies, which together shall constitute a fully executed agreement. Counterparts may be delivered via fax, e-mail (including pdf of any electronic signature complying with the provisions of 15 U.S.C. §§ 7001 *et seq.* and 11 V.I.C. §§ 101-120) and any counterparts so delivered shall be deemed to have been duly and validly delivered and shall be valid and effective for all purposes and treated in all respects as an original instrument bearing original signature.

Addendum I
(Scope of Work)

Addendum II (General Provisions)

General Provisions

The following provisions shall govern the Contract to the extent applicable:

1. DEFINITIONS

The term "Contracting Officer" as used herein means the person executing this contract on behalf of the Hospital or his or her designee, and includes the duly appointed successor of the person executing this contract or his or her designee, or the duly authorized representative of the Hospital.

2. SPECIFICATIONS AND DRAWINGS

The Contractor shall keep on the work a copy of the drawings and specifications and shall at all times give the Contracting Officer access thereto. Anything mentioned in the specifications and not shown on the drawings, or shown on the drawings and not mentioned in the specifications, shall be of like effect as if shown or mentioned or both. In case of difference between drawings and specifications, the specifications shall govern. In case of discrepancy either in the figures, in drawings, or in the specifications, the matter shall be promptly submitted to the Contracting Officer, who shall promptly make a determination in writing. Any adjustment by the Contractor without such determination shall be at its own risk and expense. The Contracting Officer shall furnish from time to time such detail drawings and other information as he or she may consider necessary, unless otherwise provided.

3. CHANGES

(a) The Contracting Officer may, at any time, without notice to any sureties, by written order designated or indicated to be a change order, make any change in the work in the general scope of the contract, including but not limited to changes:

- (i) In the specifications (including drawings and designs);
- (ii) In the method or manner of performance of the work;
- (iii) In the furnished facilities, equipment, materials, services, or site; or
- (iv) directing acceleration in the performance of the work;

Provided, however, that notwithstanding the foregoing, any change which causes an increase in the Contract Price shall be subject to approval or ratification by the GHHFC Board and the availability and appropriation of funds.

(b) Any other written order or an oral order (which

terms as used in this paragraph (b) shall include direction, instruction, interpretation, or determination) from the Contracting Officer, which causes any such change, shall be treated as a change order under this clause, provided that the Contractor gives the Contracting Officer written notice stating the date, circumstances, and source of the order and that the Contractor regards the order as a change order.

(c) Except as herein provided, no order, statement, or conduct of the Contracting Officer shall be treated as a change under this clause or entitle the Contractor to an equitable adjustment hereunder.

(d) If any change under this clause causes an increase or decrease in the Contractor's cost of, or the time required for, the performance of any part of the work under this contract, whether or not changed by any order, an equitable adjustment shall be made and the contract modified in writing accordingly; provided, however, that except for claims based on defective specifications, no claim for any change under (b) above shall be allowed for any costs incurred more than 20 days before the Contractor gives written notice as therein required. And provided further, that in case of defective specifications for which the Hospital is responsible, the equitable adjustment shall include any increased cost reasonably incurred by the Contractor in attempting to comply with such defective specifications.

(e) If the Contractor intends to assert a claim for an equitable adjustment under this clause, it must, within 30 days after receipt of a written change order under (a) above or the furnishing of a written notice under (b) above, submit to the Contracting Officer a written statement setting forth the general nature and monetary extent of such claim, unless this period is extended by the Hospital. The statement of claim hereunder may be included in the notice under (b) above.

(f) No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this Contract.

4. DIFFERING SITE CONDITIONS

(a) The Contractor shall promptly, and before such conditions are disturbed, notify the Contracting Officer in writing of: (1) Subsurface or latent physical conditions at the site differing materially from those indicated in this Contract, or (2) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inhering in work of the character provided for in this Contract. The Contracting Officer shall promptly investigate the conditions, and if

he or she finds that such conditions do materially so differ and cause an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this Contract, whether or not changed as a result of such conditions, an equitable adjustment shall be made and the contract modified in writing accordingly.

(b) No claim of the Contractor under this clause shall be allowed unless the Contractor has given the notice required in (a) above; provided, however, the time prescribed therefore may be extended by the Hospital in its discretion.

(c) No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this Contract.

5. TERMINATION FOR DEFAULT-- DAMAGES FOR DELAY--TIME EXTENSIONS

(a) If the Contractor refuses or fails to prosecute the work or any separable part thereof, with such diligence as will insure its completion within the time specified in this contract, or any extension thereof, or fails to complete said work within such time, the Hospital may, by written notice to the Contractor, terminate the right to proceed with the work or such part of the work as to which there has been delay. In such event the Hospital may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of and utilize in completing the work such materials, appliances, and other items as may be on the site of the work as necessary therefor. Regardless of whether the Contractor's right to proceed with the work is terminated, the Contractor and his sureties shall be liable for any damage to the Hospital resulting from its refusal or failure to complete the work within the specified time.

(b) If fixed and agreed liquidated damages are provided in the contract and if the Hospital so terminates the Contractor's right to proceed, the resulting damage will consist of such liquidated damages until such reasonable time as may be required for final completion of the work together with any increased costs occasioned by the Hospital in completing the work.

(c) If fixed and agreed liquidated damages are provided in the Contract and if the Hospital does not so terminate the Contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.

(d) The Contractor's right to proceed shall not be so terminated nor the Contractor charged with resulting damage if:

(1) The delay in the completion of the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, acts of the public enemy, acts of the Government in either its sovereign or contractual capacity, acts of another

contractor in the performance of a contract with the Hospital or the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather, or delays of subcontractors or suppliers arising from the unforeseeable causes beyond the control and without the fault or negligence of both the Contractor and such subcontractors or suppliers; and

(2) The Contractor, within 10 days from the beginning of such delay (unless the Contracting Officer grants a further period of time before the date of final payment under the Contract,) notifies the Contracting Officer in writing of the causes of delay.

The Contracting Officer shall ascertain the facts and the extent of any delay and the extent the time for completing the work when, in his or her judgment, the findings of facts justify such an extension, and the findings of fact of the Contracting Officer shall be final and conclusive on the parties, subject only to appeal as provided in Clause 6 of these General Provisions.

(e) If, after notice of termination of the Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for the convenience of the Hospital, be the same as if the notice for termination had been issued pursuant to such clause. If in the foregoing circumstances, this contract does not contain a clause providing for termination for the convenience of the Hospital, the contract shall be equitably adjusted to compensate for such termination and the contract modified; accordingly, failure to agree to any such adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(f) The rights and remedies of the Hospital provided in this clause are in addition to any other rights and remedies provided by the law of under this contract.

6. DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his or her decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Chair of the GHHFC. The decision of the Chair or his or her duly authorized representative for the determination of such appeals shall be final and conclusive. This provision shall not be pleaded in any suit involving a question of fact arising under this contract as limited

judicial review of any such decision to cases where fraud by such official or his representative or board is alleged: **Provided, however,** That any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This Disputes clause does not preclude consideration of questions of law in connection with decisions provided for in paragraph (a) above. Nothing in this contract, however, shall be construed as making final the decision of any administrative official, representative or board on a question of law.

7. PAYMENTS TO CONTRACTOR

(a) The Hospital will pay the Contractor the price as hereinafter provided.

(b) The Hospital will make progress payments monthly as the work proceeds, or at more frequent intervals as determined by the Contracting Officer, on a percentage completion basis, less retainage. The Contractor shall furnish a breakdown of the total contract price showing the amount included therein for each principal category of the work, in such detail as requested, to provide a basis of determining progress payments. In the preparation of estimates the Contracting Officer, at his discretion, may authorize any material delivered on the site and preparatory work done to be taken into consideration. Material delivered to the Contractor at locations other than the site may also be taken into consideration (1) if such consideration is specifically authorized by the contract and (2) if the Contractor furnishes satisfactory evidence that it has acquired title to such material and that it will be utilized on the work covered by this Contract.

(c) In making any progress payments hereunder, there shall be retained ten percent (10%) of the estimated amount until final completion and acceptance of the contract work. However, if the Contracting Officer, at any time after fifty percent (50%) of the work has been completed, finds that satisfactory progress is being made, he or she may but is not required to authorize any of the remaining progress payments to be made in full. Also, whenever the work is substantially complete, the Contracting Officer, if he or she considers the amount retained to be in excess of the amount adequate for the protection of the Hospital, at his or her sole discretion, may release to the Contractor all or a portion of such excess amount. Furthermore, on completion and acceptance of each separate building, phase, public work, or other division of the contract, on which the

price is stated separately in the contract, payment may be made therefore without retention of a percentage at the sole discretion of the Contracting Officer.

(d) All material and work or work product covered by progress payments made shall thereupon become the sole property of the owner of the premises, expressly subject to any interest therein of the federal or local government or any instrumentality thereof as a result of the use of federal funding or local funds in connection therewith, but this provision shall not be construed as relieving the Contractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work, or a waiving of the right of the Hospital to require fulfillment of all the terms of the Contract.

(e) Upon completion and acceptance of all work, the amount due to the Contractor under this contract shall be paid upon the presentation of a properly executed voucher or invoice and after the Contractor shall have furnished the Hospital with the required closeout documentation including without limitation a release, if required by the Hospital, of all claims against the Hospital or the Government arising by virtue of this Contract, other than claims in stated amounts as may be specifically excepted by the Contractor from the operation of the release. If the Contractor's claim to amounts payable under the contract has been assigned under the Assignment of Claims Act of 1940, as amended (31 U.S.C. § 203, 41 U.S.C. § 15), a release may also be required of the assignee.

8. ASSIGNMENT OF CLAIMS

(a) If this contract provides for payments aggregating \$1,000 or more, claims for monies due or to become due to the Contractor from the Hospital under this contract may be assigned to a bank, trust company, or other financial institution, including any federal lending agency and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Unless otherwise provided in this contract, payments to an assignee of any monies due to become due under this contract shall not, to the extent provided in said Act, as amended, be subject to reduction or setoff.

9. MATERIAL AND WORKMANSHIP

(a) Unless otherwise specifically provided in this Contract, all equipment, material, and articles incorporated into the work covered by this contract are to be new and of the most suitable grade for the purpose intended. Unless otherwise specifically provided in this Contract, reference to any equipment, material, article, or patented process, by trade name, make, or catalog

number, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition, and the Contractor may, at his option, use any equipment, material, article or process which, in the judgment of the Contracting Officer is equal to that named. The Contractor shall furnish to the Contracting Officer for his approval the name of the manufacturer, the model number, and other identifying data and information respecting the performance, capacity, nature, and rating of the machinery and mechanical and other equipment which the Contractor contemplates incorporating in the work. When required by this contract or when called for by the Contracting Officer, the Contractor shall furnish the Contracting Officer for approval full information concerning the material or articles which it contemplates incorporating in the work. When so directed, samples shall be submitted for approval at the Contractor's expense, with all shipping charges prepaid. Machinery, equipment, material and articles installed or used without required approval.

(b) All work under this Contract shall be performed in a skillful and workmanlike manner. The Contracting Officer may, in writing, require the Contractor to remove from the work any employee the Contracting Officer deems incompetent, careless, or otherwise objectionable.

10. INSPECTION AND ACCEPTANCE

(a) Except as otherwise provided in this Contract, inspection and testing by the Hospital of material and workmanship required by this Contract shall be made at reasonable times and at the site of the work, unless the Contracting Officer determines that such inspection or test of material which is to be incorporated in the work shall be made at the place of production, manufacture, or shipment of such material. To the extent specified by the Contracting Officer at the time of determining to make off-site inspections or testing, such inspection or testing shall be conclusive as to whether the material involved conforms to the Contract requirements. Such off-site inspection or testing shall not relieve the Contractor of responsibility for damage to or loss of the material prior to acceptance, nor in any way affect the continuing rights of the Hospital after acceptance of the completed work under the terms of paragraph (f) of this clause, except as hereinabove provided.

(b) The Contractor shall, without charge, replace any material or correct any workmanship found by the Hospital not to conform to the Contract requirements, unless in the public interest the Hospital consents to accept such material or workmanship with an appropriate adjustment in contract price. The Contractor shall promptly segregate and remove rejected material from the premises.

(c) If the Contractor does not promptly replace rejected material or correct rejected workmanship, the Hospital (1) may, by contract or otherwise, replace such

material or correct such workmanship and charge the cost thereof to the Contractor, or (2) may terminate the Contractor's right to proceed in accordance with clause 5 of these General Provisions.

(d) The Contractor shall furnish promptly, without additional charge, all facilities, labor, and material reasonably needed for performing such safe and convenient inspection and testing as may be required by the Contracting Officer. All inspection and testing by the Hospital shall be performed in such manner as not unnecessarily to delay the work. Special, full size and performance tests shall be performed as described in this contract. The Contractor shall be charged with any additional cost of inspection when material and workmanship are not ready at the time specified by the Contractor for its inspection.

(e) Should it be considered necessary or advisable by the Hospital at any time before acceptance of the entire work to make an examination of work already completed, by removing or tearing same, the Contractor shall, on request, promptly furnish all necessary facilities, labor and material. If such work is found to be defective or non-conforming in any material respect, due to the fault of the Contractor or its subcontractors, Contractor shall defray all the expenses of such examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements of the contract, an equitable adjustment shall be made in the contract price to compensate the Contractor for the additional services involved in such examination and reconstruction and, if completion of the work has been delayed thereby, it shall, in addition, be granted a suitable extension of time.

(f) Unless otherwise provided in this contract, acceptance by the Hospital shall be made as promptly as practicable after completion and inspection of all work required by this contract. Acceptance shall be final and conclusive except as regards latent defects, fraud, or such gross mistakes as may amount to fraud, or as regards the Hospital's rights under any warranty or guarantee.

11. SUPERINTENDENCE BY CONTRACTOR

The Contractor shall give its personal superintendence to the work or have a competent foreman or superintendent, satisfactory to the Contracting Officer, on the work at all times during progress, with authority to act for the Contractor.

12. PERMITS AND RESPONSIBILITIES

The Contractor shall, without additional expense to the Hospital, be responsible for obtaining any and all necessary licenses and permits of any kind or nature whatsoever, and for complying with any applicable

federal or local laws, codes and regulations, in connection with the prosecution of the work hereunder. The Contractor shall not perform work before any necessary licenses and permits are in place. The Contractor shall be similarly responsible for all damages to persons or property that may occur as a result of its fault or negligence. The Contractor shall take proper safety and health precautions to protect the work, the workers, the public, and the property of others. The Contractor shall also be responsible for all materials delivered and work performed until completion and acceptance of the entire construction work, except for any completed unit of construction thereof which theretofore may have been accepted.

13. CONDITIONS AFFECTING THE WORK

The Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions which can affect the work or the cost thereof. Any failure by the Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to the Hospital. The Hospital assumes no responsibility for any understanding or representations concerning conditions made by any of its officers or agents prior to the execution of this contract unless such understanding or representations are expressly stated in the contract.

14. OTHER CONTRACTS

The Hospital may undertake or award other contracts for additional work, and the Contractor shall fully cooperate with such other contractors and Hospital employees or agents and carefully fit its own work to such additional work as may be directed by the Contracting Officer. The Contractor shall not commit or permit any act which will interfere with the performance of work by any other contractor or by Hospital employees or agents.

15. INDEMNITY

Except as otherwise provided, the Contractor agrees to indemnify the Hospital (specifically including the GHHFC) and the Government of the Virgin Islands generally, along with the officers, directors, agents and employees of any of the foregoing, against liability, including costs and expenses, arising out of the performance of this contract or out of the use or disposal by or for the account of the Hospital of supplies furnished or construction work performed hereunder.

16. ADDITIONAL BOND SECURITY

If any surety upon a bond furnished in connection with this contract becomes unacceptable to the Hospital, or if any such surety fails to furnish reports as to the Contractor's financial condition from time to time as

requested by the Hospital, the Contractor shall promptly furnish such additional security as may be required from time to time to protect the interests of the Hospital and of persons supplying labor or materials in the prosecution of the work contemplated by this contract.

17. COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting lawful payments to bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. Contractor further warrants that no payments have been made or are due which would violate any local or federal law with respect to kickbacks, lobbying, conflicts of interest or false claims. For breach or violation of this warranty, the Hospital shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.

18. OFFICIALS NOT TO BENEFIT

No member of the Legislature or members of Congress shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom.

19. UTILIZATION OF APPRENTICES OR TRAINEES & SMALL BUSINESS CONCERNS

(a) It is the policy of the Hospital as declared by the Legislature and Congress that a fair portion of the purchases and contracts for suppliers and services for the Hospital be placed with small business concerns, minority business enterprises, and women's business enterprises.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to duly licensed small business, minority business, and women's business enterprise concerns that the Contractor finds to be consistent with the efficient performance of this Contract.

(c) To the extent applicable to this Contract, Contractor shall hire, in addition to any other employee he may retain, apprentices or trainees or both for the performance of the work hereunder, the total number of which shall be determined by the Director of the Division of Apprenticeship and Training upon the basis of one (1) Apprentice (or Trainee) for the first journeyman steadily employed, and one (1) additional Apprentice (or Trainee) for every two (2) additional Journeymen steadily employed.

(d) To the extent applicable, within ten days of the execution of this Agreement the Contractor shall submit

to the Division of Apprenticeship and Training, and to the Contracting Officer, a list of the occupations for which Journeymen will be required in the performance of this contract.

(e) To the extent applicable, veterans of the U.S. Armed Forces shall be given priority with respect to the hiring of Apprentices and Trainees.

(f) Failure of the Contractor to comply with the aforesaid provisions of this section shall be a material breach thereof.

20. SUSPENSION OF WORK

(a) The Contracting Officer may order the Contractor in writing to suspend, delay, or interrupt any part of all of the work for such period of time as the Contracting Officer may determine to be appropriate for the convenience of the Hospital, for any reason.

(b) If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted by an act of the Contracting Officer in the administration of this contract or by his failure to act within the time specified in this contract (or if no time is specified, within a reasonable time), an adjustment may be made, in the sole discretion of the Hospital, for any increase in the cost of performance of this contract (excluding profit) necessarily caused by such unreasonable suspension, delay, or interruption and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay or interruption to the extent (1) that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor or (2) for which an equitable adjustment is provided for or excluded under any other provision of this contract.

(c) No claim under this clause shall be allowed (1) for any costs incurred more than 20 days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order) and (2) unless the claim in an amount stated, is asserted in writing as soon as practicable after the termination of such suspension, delay, or interruption but not later than the date of final payment under the contract.

21. WARRANTY OF CONSTRUCTION

(a) In addition to any other warranties set out elsewhere in this Contract, the Contractor warrants that the work performed under this Contract conforms to the Contract requirements and is free of any defect of equipment, material or design furnished, or workmanship performed by the Contractor or any of its subcontractors and suppliers at any level. Such warranty

shall continue for a period of one year from the date of final acceptance of the work, but with respect to any part of which the Hospital takes possession of prior to final acceptance, such warranty shall continue for a period of one year from the date the Hospital takes possession. Under this warranty, the Contractor shall remedy at its own expense any such failure to conform or any such defect. In addition, the Contractor shall remedy at its own expense any damage to the Hospital or to Government owned or controlled real or personal property, when that damage is the result of the Contractor's failure to conform to contract requirements or any such defect of equipment, material, workmanship, or design. The Contractor shall also warrant to restore any work repaired or replaced hereunder, running for a period of one year from the date of repair or replacement.

(b) The Hospital shall notify the Contractor in writing within a reasonable time after the discovery of any failure, defect or damage.

(c) Should the Contractor fail to remedy any failure, defect, or damage described in (a) above within a reasonable time after receipt of notice thereof, the Hospital shall have the right to replace, repair, or otherwise remedy such failure, defect, or damage, at the Contractor's expense.

(d) In addition to the rights and remedies provided by this clause, all subcontractor, manufacturer, and supplier warranties expressed or implied, respecting any work and materials shall, at the direction of the Hospital, be enforced by the Contractor for the benefit of the Hospital. In such case if the Contractor's warranty under (a) above has expired, any suit directed by the Hospital or the Government to enforce a subcontractor, manufacturer, or supplier warranty shall be at the expense of same. The Contractor shall obtain any warranties which any subcontractor, manufacturer, or supplier would give in normal commercial practice.

(e) If directed by the Contracting Officer, the Contractor shall require any such warranties to be executed to the Hospital or the Government, as their interests may appear.

(f) Notwithstanding any other provisions of this clause, unless such a defect is caused by the negligence of the Contractor or its subcontractor(s) or supplier(s) at any tier, the Contractor shall not be liable for the repair of any defects of material or design furnished by the Hospital nor for the repair of any damage which results from any such defect in Hospital-furnished material(s) or design(s).

(g) The warranty specified herein shall not limit the Hospital's rights under the Inspection and Acceptance clause of this Contract with respect to latent defects, gross mistake, or fraud.

 - (iii) terminate all orders and subcontracts to the extent they relate to the performance of work terminated by the Notice of Termination;
 - (iv) assign to the Hospital, in the manner, at the times, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Hospital shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

However, if the Contracting Officer determines that the facts justify such action, he or she may receive and act upon failure of the Contractor to submit his termination claim within the time allowed, the Contracting Officer may determine, on the basis of information available to him or her, the amount, if any, due to the Contractor by any reason of the termination and shall thereupon pay to the Contractor the amount so determined, subject to the approval of the Chief Financial Officer of the Hospital.
- (d) Subject to the provisions of paragraph (c) the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the total or partial termination of work pursuant to this clause, which amount or amounts may include a reasonable allowance for profit on work done; provided, that such agreed amount or amounts, exclusive of settlement costs, shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount. Nothing in paragraph (e) of this clause, prescribing the amount to be paid to the Contractor in the event of failure of the Contractor and the Contracting Officer to agree upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, shall be deemed to limit, restrict or otherwise determine or affect the amount or amounts which may be

agreed to be paid to the Contractor pursuant to this paragraph (d).

(e) In the event of a failure of the Contractor and the Contracting Officer to agree as provided in paragraph (d) upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, the Contracting Officer shall pay to the Contractor the amounts determined by him or her as follows, but without duplication of amounts agreed upon in accordance with paragraph (d):

(i) for completed supplies, materials and equipment or services accepted by the Hospital (or sold or acquired as provided in paragraph (b)(vii) above) and not theretofore paid for, a sum equivalent to the aggregate price for such supplies or services computed in accordance with the price or prices specified in the contract, appropriately adjusted for any saving for freight or other charges;

(B) the cost of settling and paying claims arising out of the termination of work under subcontracts or orders, as provided in paragraph (b)(v) above, which are properly chargeable to the terminated portion of the contract (exclusive of amounts paid or payable on account of supplies or materials delivered or services furnished by subcontractors or vendors prior to the effective date of the Notice of Termination), which amounts shall be included in the costs payable under (A) above; and

(C) a sum, as profit on (A) above, determined by the Contracting Officer to be fair and reasonable; provided, however, that if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, no profit shall be included or allowed under this subdivision (C) and an appropriate adjustment shall be made reducing the amount of the settlement to reflect the indicated rate of loss; and

(iii) the reasonable costs of settlement, including accounting, legal, clerical and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of any subcontract thereunder, together with reasonable storage, transportation and other costs incurred in connection with protection or disposition of property allocable to this contract.

STAFFORD ACT PUBLIC ASSISTANCE GRANT COMPLIANCE

This Contract may be funded, in whole or in part, under a Public Assistance grant made pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988 ("Stafford Act"). To the extent the same may be applicable to the performance of the Contractor's obligations under this Contract, the following required funding provisions are incorporated as terms and conditions of the Contract:

Equal Employment Opportunity

In compliance with the provisions of 41 C.F.R. Part 60-1.4(b), to the extent the same may apply hereto, during the performance of this Contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the

employer, or is consistent with the Contractor's legal duty to furnish information.

(4) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this Contract or with any of the said rules, regulations, or orders, this Contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering

agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, that in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

The Hospital further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of the Government which does not participate in work on or under the Contract.

The Hospital agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of Contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The Hospital further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the Hospital agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.
